Having completed my qualification as a Digital Designer and through my freelance experience, I would describe myself as a self-driven creative always keen to expand my abilities.

I am dependable and have incredible work ethic; I will put in the extra time and hard work in order to ensure the success of my projects. Outside of my pursuit to improve my skills and abilities as a Digital Designer, I work on freelance digital design projects for various organisations.

I am currently seeking permanent employment or an internship that will provide job shadowing opportunities, growth, and exposure.
